WeCare Pharmacy

The Compounding Specialists

Committed to Quality Compounding

A successful treatment depends on quality pharmaceuticals. We use only the finest ingredients and bases in our compounding practice. Our state-of-the-art labs meet the highest design and safety standards set by the **U.S. Pharmacopeial Convention (USP)**, and all of our compounds are routinely end-product tested by an outside laboratory to ensure we are providing only the best pharmaceutical products to our patients.

Dosage Forms to Meet Every Need

We offer a full suite of compounding services, including non-sterile and sterile preparations. Our expert compounders can customize medications into the dosage form that works best for your patient, including:

Non-Sterile (USP <795>)

- Capsule
- Effervescent Powder
- Oil Capsule
- Oral Suspension (Flavored)
- Rectal Gel
- Sublingual Oil
- Suppository
- Topical Cream
- Transdermal Cream
- Troche

Sterile (USP <797>)

- Injectable Medication (IM/SQ)
- Intravenous Medication (IV)
- Irrigation
- Ophthalmic Preparation
